

Extend your practice knowledge

Weleda and Anthroposophic Medicine Training Day

Friday 23rd February 2018

We invite you to join a wide ranging group of health professionals for a training day at Weleda in Havelock North. The day will help you as a health and pharmacy professional provide the information you need on the use, quality, safety and effectiveness of the Weleda medicines you can recommend as part of your work. The training day is the first in a new series to extend your tool box of possibilities through the knowledge and use of Anthroposophic medicine.

The day begins with a tour of our operation from garden to manufacturing. After the tour you will explore one of the unique manufacturing techniques used in Anthroposophic medicine and receive training on a selection of specialised medicines offered by Weleda.

Following a light lunch our afternoon session moves to learning through our hands and imagination as we deepen and expand our knowledge of a widely used medicinal plant with some fun and interactive directed observation exercises.

Weleda NZ and Weleda Pharmacy are located within a 6 hectare Demeter certified biodynamic farm and garden. Our GMP registered facility is the heart of our operation and where our licensed anthroposophic and homeopathic medicines are made. We are looking forward to meeting with you to experience what makes Anthroposophic medicines different.

Investment is \$50 and includes teas, lunch and a \$30 voucher to use on the day at the Weleda Pharmacy.

To reserve your place: email your contact and profession details to anthromed@weleda.co.nz

Then pay online at 03-0698-0524083-00. Reference: (your name) Code: (Feb 23).

We hope you can stay on for the weekend conference beginning that evening with Dr Adam Blanning. See the separate flyer for more details.

If you are unable to come but are interested in future training possibilities please contact us at the above email address.
